Power Engineering Licensing and Exam Sitting Fees	TBD	

International payment methods:

- While abroad, international student payments are only accepted via flywire.
- Upon arrival in Canada, any accepted Canadian payment method is available or via flywire.

Please note: Flywire is a secure, streamlined international payment solution. Flywire accepts flexible payment methods to meet international students' needs while overseas. Flywire makes international students money convert between currencies with no cost to the educational institution. Essentially, the student is able to pay Great Plains College in their own currency and when we receive it is secure and in Canadian currency. Many institutions are using this method for accepting payments from international students before they arrive in Canada.

International Refund Schedule

Please Note: Discontinued international students are not eligible for refunds of tuition and fees
