

# CONTINUING CARE ASSISTANT

SEPTEMBER-APRIL (FULL-TIME)  
KINDERSLEY

## CAREER OPPORTUNITIES

Continuing care assistants may work in home care settings, long-term care facilities, private care homes, acute care facilities, integrated facilities, supportive housing or special needs classrooms. Most continuing care assistants work for the Saskatchewan Health Authority as part of a health care team under the supervision of registered nurses, registered psychiatric nurses and/or licensed practical nurses.

.....

## EARNING POTENTIAL

In 2016, the average annual salary for full-time nurse aide in Saskatchewan was \$42,900 according to the Saskatchewan Ministry of the Economy. Employees may earn more or less depending on their employer, location, size of company, training, experience and hours worked.

Demand for continuing care assistants and other health care workers will continue to rise as Saskatchewan's population ages in the coming years.

## WHAT YOU WILL LEARN

Learn to function as a team member in home and special care. Through a combination of hands-on classroom learning and labs, you will receive clinical experience in home and long-term care settings. This program focuses on working with the elderly, but you will be prepared to work with clients of all ages.

## ENTRANCE REQUIREMENTS

- Grade 12 or successful completion of 15 post-secondary credits from a recognized institution.
- English language requirement
- Accepted applicants will be required to provide evidence of a current criminal record check and vulnerable sector check prior to entering the clinical component of the program
- Standard First Aid and CPR HeartSaver 'C' AED or equivalent are required prior to entry into clinical
- Accepted applicants are required to provide current immunization records

Please note that if you do not meet the academic requirements, special admissions options may be available.
