

WHAT YOU WILL LEARN

Thinking about university but want to start out in a smaller class size and save money by staying closer to home? You can take your first year (and sometimes more) of almost any University of Regina or University of Saskatchewan program right here at Great Plains College.

Many courses are offered face-to-face (with under 35 people per class), while others are live streamed or delivered online.

ENTRANCE REQUIREMENTS

- Program specific—visit www.uregina.ca or www.usask.ca for more information

SCHOLARSHIP ELIGIBLE

Apply as a full-time student before April 30 and you are automatically considered for a \$500–\$5,000 Entrance Scholarship.

Apply before June 30—if you are in Grade 11 and have a 70% average and you may be eligible for a \$1,000 Early Entrance Award.

By taking your first year of university through Great Plains College, you'll double your chances for scholarships as you'll also be eligible for scholarships from your university of study in addition to the Entrance Scholarships at Great Plains College.

FIRST-YEAR OPTIONS

Agriculture

Students accepted into the University of Saskatchewan's College of Agriculture and Bioresources can take their first year of study with concentrations in agricultural biology, agricultural economics, agronomy, animal science, applied plant ecology, crop science, environmental science, food and bioproduct science, horticulture science, and soil science. Students at Great Plains College will benefit from the campus' proximity to the Swift Current Research Development Centre, a leading agriculture research facility.

Arts & Science

The first year provides you with the opportunity to take a variety of courses needed to pursue the degree of your choice. You can also keep your options open and take the time to identify program areas that interest you. Student advisers will work with you to help select classes that meet general degree requirements. That way, when you are ready to choose a major or program you will likely have the prerequisites in place.

Education

Students accepted into the University of Regina's Elementary or Middle Years programs or the University of Saskatchewan's Early Middle Years program can complete their first year at Great Plains College. Secondary Education students can also take courses toward their program as full-time or part-time students. An adviser will assist you with course selection to fit your Education program.

Pre-Nursing

Students interested in obtaining a Bachelor of Science in Nursing (BSN) from the University of Saskatchewan can take their first year, 30 credit hours, of pre-professional Arts and Science courses at Great Plains College.

Social Work

Begin the first year of a University of Regina Social Work degree and start to gain the skills necessary to counsel individuals and groups, develop and administer programs, and implement problem-solving strategies, often with minority and disadvantaged groups in urban, rural and remote areas. Complete your remaining years online or at the University of Regina.

APPLICATION PROCESS

You must apply to your university of choice as well as Great Plains College. Contact a Great Plains College student adviser. They will work with you to apply to the University of Regina or University of Saskatchewan and select the appropriate course load. Academic advising is designed to help you understand your academic options and to build the degree program

tailored to your particular interests and goals. The student advisers at Great Plains College can provide advice based on the information available at the time of the session.

The final decision to register in classes is your responsibility. You must register for the appropriate course sections in order to take University programming at Great Plains College.
