

WHAT YOU WILL LEARN

Learn on state-of-the-art equipment and one-of-a-kind projects in our Canadian Welding Bureau (CWB) certified shop, and have the opportunity to take the CWB test before you graduate (at an additional cost). You will receive training in multiple welding processes, operating fabrication equipment, using blueprints, general shop practice and shop safety.

Your Saskatchewan Polytechnic Welding certificate may give you credit for Level 1 and Level 2 apprenticeship training as well as 600 hours of trade time credit provided that you meet the academic and timeline requirements as specified by the Saskatchewan Apprenticeship and Trade Certification Commission (SATCC). You'll only need Level 3 training and enough work hours to write the interprovincial journeyman exam—your ticket to working as a journeyman welder anywhere in Canada.

ENTRANCE REQUIREMENTS
