

WHAT YOU WILL LEARN

You will receive training in boiler operations, air conditioning, heating, refrigeration and water treatment systems through classroom training. The program also requires two three-week labs in Saskatoon and one 60-hour work placement (costs to attend the power labs and work placement are the responsibility of the student).

The program will prepare you to write the two Fourth Class Interprovincial examinations.

Upon obtaining your Fourth Class Power Engineering license, you may go straight into the workforce or enrol in the Third Class Power Engineering program.

ENTRANCE REQUIREMENTS

- Grade 12 with Foundations of Math 30 or Pre-Calculus 30
- Minimum overall average of 65%

- English language requirement
- Chemistry and physics are not required, but are strongly recommended

Please note that if you do not meet these entrance requirements, special admissions options may be available.

SCHOLARSHIP ELIGIBLE

Apply to a full-time program before April 30 and you'll automatically be considered for a \$500-\$3,000 Entrance Scholarship.
